8. In Device Manager, under [Other Devices], right-click [Hi-Speed USB ASSP]. On the menu that is displayed, click [Update Driver].

9. The Hardware Update Wizard will be displayed. Select [Install from a list or specific location (Advanced)] and click [Next >].

Hardware Update Wizard			
	Welcome to the Hardware Update Wizard		
	This wizard helps you install software for:		
	FSGUsb.Sys USB I/F		
	If your hardware came with an installation CD or floppy disk, insert it now.		
	What do you want the wizard to do?		
	Install the software automatically (Recommended)		
	Install from a list or specific location (Advanced)		
	Click Next to continue.		
	< Back Next > Cancel		

10. Select [Search for the best driver in these locations.] and then check [Include this location in the search:] only. Select [C:¥WINDOWS¥system32] as the search location.

Hardware Update Wizard
Please choose your search and installation options.
Search for the best driver in these locations.
Use the check boxes below to limit or expand the default search, which includes local paths and removable media. The best driver found will be installed.
Search removable media (floppy, CD-ROM)
Include this location in the search:
C#WINDOWS¥SYSTEM32 Browse
O Don't search. I will choose the driver to install.
Choose this option to select the device driver from a list. Windows does not guarantee that the driver you choose will be the best match for your hardware.
< Back Next > Cancel

11. Please wait a moment for the update dialog box to be displayed.
